

Connection Between plants and animals

O₂ Energy Food

~~Subtract~~ I have + everyone
 ☹️ ☺️ Relies
 Sins energy on plants
 I save eat them However
 to get it indirectly

Evolution Natural Selection

Slow changes to DNA that cause organisms to better fit their envi.

Only the Best Live

How evolution works.

Ancestral | Derived

~~Prokaryote~~ / Algae | Eukaryote / flower

Old / Creepy | Shiny / New

- Less Complex - More Complex

↳ gained complex characters as they evolved

explain the relationship between gymnosperms + angiosperms
* Derived * Ancestral
← awesome
viscularity
